When the option OutDec is not `.`, put numbers in `\text`. See #348.

```
options(OutDec = ",")
```

This is the first test. abc 0,6 def
another test $a = 0{,}6$.
and the last one $a = 0.6$.

```
options(OutDec = ".")
```

This is the first test. abc 0.6 def
another test $a = 0.6$.
and the last one $a = 0.6$.
